

Getting started with

Watercolor

PAINT

- Transparent •

PAN

great for the outdoors

qum arabic is used to keep watercolors moist, so don't worry about PANS drying out!

TUBE

better for washes & large areas of color.

- Opaque •

called "GOUACHE" (qwash) great for flat areas of color & reproduction

Grades

Professional

highly pigmented

Student

less pigmented, more affordable

M. GRAHAM

WINSOR & NEWTON

SENNELIER

SCHMINCKE (professional pan) HOLBEIN

COTMAN

BRUSHES

FEATURES TO LOOK FOR IN A BRUSH

- Holds water and color
- Releases color
- Springs back to point

FLAT

(1" common size)

used for flat washes, large areas of color

ROUND

(#10/#12 common sizes)

used for strokes

LINER OR

for details

SPOTTED

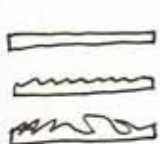

OTHER KINDS

Mop & Fan

PAPER

- sized to keep from curling

HOT PRESS - smooth, good for detailed work
 COLD PRESS - a little textured, most popular
 ROUGH PRESS - for a very textured appearance

• AVAILABLE IN DIFFERENT WEIGHTS
